PC Maritime takes on internet weather forecasting products

Marine software specialists PC Maritime are now distributing internet weather forecasting products from Nowcasting International to complement their range of weatherfax products.

Nowcasting International is one of Europe's leading suppliers of high resolution marine weather forecasting systems for both leisure and commercial sectors. Their systems provide accurate high resolution marine forecast services to mariners anywhere in Europe and the US eastern seaboard.

Residing on a PC or laptop, Nowcasting International's products enable customers to download forecast wind speed, direction and sea state centred on their actual location. There are 4 updates per 24-hour period and communication can be via internet, GSM or sat phone.

Customers can subscribe to Nowcasting International's marine forecasting services by contacting PC Maritime's office on +44 (0)1752 254205, or online via their web site at: <http://www.pcmaritime.co.uk>

A free trial of Nowcasting Liberty is also available from PC Maritime's site.

Ends July 2003
